Agreement

between

CSX Transportation, Inc.,

and its employees represented by

the Brotherhood of Maintenance of Way Employees Division of the IBT

Whereas, the Arbitrated Agreement between CSX Transportation, Inc., and the Brotherhood of Maintenance of Way Employees Division of the IBT, otherwise referred to as “Appendix S” of the June 1, 1999 System Agreement, provides parameters for the establishment of a system gang to consist of no fewer than twenty employees; and,

Whereas, the parties understand that system rail distribution and collection work does not fit such manpower threshold;

Therefore, it is hereby agreed,

Upon the execution of this agreement, without precedent or prejudice to the party’s long standing position, the Carrier may establish system production gangs for the purpose of distributing and collecting rail for use throughout the Carrier’s system under the following conditions:

1) Gangs for the operation of the Carrier’s rail trains consisting of one (1) or two (2) employees will be advertised, as necessary, to all employees who are subject to the provisions of Appendix S, of the June 1, 1999 System Agreement (as amended August 22, 2005).

2) Applicants for the Class A operator positions of the “Rail Train Operators” must possess a valid Driver’s License, must be FRA and Operating Rules qualified, and be able to effectively communicate in both written and oral forms.

3) Except as modified herein, employees assigned to the “Rail Train Operator” positions will be governed by the provisions of the amended Appendix S.

4) The rate of pay for employees assigned to the “Rail Train Operator” positions will be established at $25.09 per hour as periodically amended by applicable provisions of relevant National Agreements.

5) An employee assigned to a “Rail Train Operator” position will be entitled to single room accommodations while performing service for the Carrier in such capacity.

6) The Carrier may provide one (1) vehicle for each team established under the terms of this Agreement. When provided, this vehicle is to be used for the
operation of the Carrier's rail trains and may be used by the assigned employee(s) for transportation in connection with weekend travel to and from either a work or lodging location and/or a common meeting point. When this vehicle is used for weekend travel, such time traveling in this vehicle will not be considered as time worked for the purpose of compensation; however, the travel allowance and per diem payments as provided for in the amended Appendix S will apply.

7) Bulletins in connection with "Rail Train Operator" positions will not be subject to the provisions of Appendix S requiring annual bulletining.

This Agreement is executed on this the 24th day of October, 2007.
